

MNU | COURSE EXTENSION POLICY

Key Information

If you feel like it may not be feasible to complete your MNU Course and successfully complete the exam by the end of the Examination Period, do not panic! We have created a course extension policy to give you some additional study time and prevent any undue stress that might have been caused by a looming deadline.

Key Features

- Maintain access to LEARN
- Maintain access to the Student Facebook Group
- Access to the Mentoring Lab (RRP £40.00 per month)
- Access to the Model Answers on Submission of Homework
- Continued MNU Tutor Support via the student Facebook group

This is all part of a reduced £450.00 one-off fee or split into 6 monthly instalments to suit your situation. This simply covers administration and staffing to support you over the 6 months.

How to Apply

We want all of our students to achieve their qualification within the 12-month course and for that reason we want you to maximise the use of the Student group and MNU Tutor support. However, should you feel this will not be possible, to set up a 6-month extension, all you need to do is go to the bottom of your course page and follow the link under the section '**Do you feel like you need an extension?**'. Once we have received your payment, we will get you all set up to complete your course in the new timeframe!
